

AURORA

AURORA

The new Aurora range is the very latest innovation from Steelite International. Aurora uses reactive glazes in combination to achieve stunning colour and contrast effects.

An artisan approach is used in decorating each piece of Aurora by hand. This accentuates the individuality and craftsmanship required in its creation and gives each piece personality. Two reactive glazes are used on each item, either to create contrast or to achieve a more sophisticated tonal look. In either case, the effect is one of richness and vibrancy, enhancing the creativity associated with many cuisine types.

Aurora is backwards compatible with both Revolution and Vesuvius ranges to further extend a creative and versatile presentation.

INSPIRED BY

The reactive glazes used in Aurora mix and flow creating beautiful random patterns and effects which are visually similar to those created when the Aurora Borealis performs in the night skies of the north.

TWO-TONE

Aurora, our most recent glaze innovation is all about combination. To do this we have developed a method of showcasing two different glazes on the same piece. The beautiful two-tone glazes integrate perfectly with Steelite's Revolution and Vesuvius ranges, creating tabletop presentations that are unique and desirable.

Aurora Vesuvius

Aurora Revolution

FROM SAVOURY TO SWEET

The Steelite family of reactive glazes create an eclectic mix of pieces to best showcase Chef's talents and to engage and delight the diner.

Whether it's main course, sides or dessert, the Aurora collection provides the perfect solution for all types of cuisine.

What Sets Us Apart	46

TONE-ON-TONE

Aurora Vesuvius is about tone-on-tone.

This is achieved by using the same glaze hue on each piece. Vesuvius

Emerald is used in combination with Revolution Jade, Lapis with

Bluestone and Amber with Sandstone.

Aurora Vesuvius

STEELITE PERFORMANCE *vesuvius*

exciting & unique; no two pieces alike

The Vesuvius range is a collection of three stunning reactive glazes, including Amber, Lapis and Emerald. Taking their names from some of nature's more precious materials, these glazes complement and contrast with each other and provide a rich and exciting platform for today's eclectic and diverse menus.

CONTRAST

Aurora Revolution is about contrasts.
This is achieved using the Sandstone glaze on the interior of the piece
set against the darker, Jade, Bluestone and Granite on the outside.

STEELITE PERFORMANCE *revolution*

nuanced artisan experience

Using reactive glazes that change in colour and intensity depending on their application, Revolution glazes are specially formulated to enhance all the nuances experienced in their execution. Applied by hand using a revolving motion, the path the brush travels across each piece is evident in the fired result. The glazed surface of each piece in the range is as different and unique as the artisan that created it. This provides an ideal platform for Chef to showcase their art, no matter what the cuisine style.

STEELITE PERFORMANCE *revolution edge*

The use of hand-applied reactive glazes on Revolution Edge frames food beautifully, allowing for a slightly more formal approach to relaxed presentations. Revolution Edge allows food to be presented on a clean white platform complemented by a contrasting colour field. This has the effect of highlighting Chef’s creativity, allowing it to speak for itself.

Revolution Edge can be used as a single colour presentation or mixed and matched freely with others in the range. It also co-ordinates beautifully with Revolution for a more casual and easy-going style.

What Sets Us Apart

The Steelite International Lifetime Edge-Chip Warranty is your assurance that all products manufactured in our UK factory are fit for purpose. This commitment to quality excellence ultimately results in product that you will replace less often – great for your kitchen, great for your long-term costs and great for the environment.

Our Alumina Vitrified clay body offer our customers the opportunity to purchase sleek and elegant pieces with the security of durability and lasting product excellence. All Performance and Distinction products are made with high alumina content to ensure ultimate strength. 100% Vitified Ceramics prevent crazing and cracking that lead to bacterial ingress over time, thus enhancing sanitation and food safety efforts.

Each piece is inspected, examined and tested so you can be confident it will withstand the rigours of the modern commercial kitchen and remain chip free.

Secure Handle Adhesion

Every time you serve a customer with a Performance or Distinction cup or mug, relax in the confidence that the handle has gone through 7 different quality checks to ensure it stays where it belongs – on the cup!

Stackability

Stackable shapes result in space-saving solutions!

Microwave & Freezer Safe

Our products offer complete versatility. However you work, be confident our products work with you.

Thermal Shock Resistance

Performance and Distinction products withstand temperature fluctuations of up to 350°F. Work with our products and work with confidence.

Heat & Chill Retention

Piping hot main course or ice-chilled desserts, serve your food as it is meant to be served.

Stain Resistance

All products have great stain resistance, which means you can work comfortably with any food time and time again... without leaving a trace.

Glaze Damage Resistance

Durable transparent glaze provides an excellent quality finish and great performance in service.

Dishwasher Safe

Our products withstand the dishwasher better than most by enduring the rigours of the food service industry wash after wash.
