The Nordic region has become synonymous with Chef's skills in developing dishes utilising the very best local ingredients and presenting them in a sensitive and contemporary manner.

Such an important culinary aesthetic deserves its own platform and the new Nordic range encompasses these shared design values. The simple but sophisticated plate profiles allow Chef the space to present dishes that can 'breathe' whilst simultaneously being framed by a deep, gently curving rim. This enables the ultimate showcasing of some of the most innovative and influential cuisine.

Designed to create a unique and relaxed presentation for casual dishes, the Taste range offers an array of shapes and sizes that are suitable for all meal types. The latest additions to the Taste range include the trendy and functional stacking plates, and a suite of bowls that are great for single serve portions or sides.

Taste can be mixed with Steelite decorated patterns Dapples or Revolution to elevate presentations and create personalised tabletops. The possibilities with Taste are endless.

The Apple colourway is a bright, energetic and fresh hue which adds a distinctly contemporary tone to the Craft range. The growth of interest in vegan, plant-based and health-conscious menus provides an opportunity to showcase these menus differently. The Apple colourway promotes a feeling of wholesome well-being, amplifying the perceived beneficial effects of healthy eating. The overall impression is one of warmth and familiarity with the zing of spring. Craft Apple co-ordinates beautifully with many of the existing Craft colours, particularly Craft Raspberry, which offers a natural and exciting counterpoint.

When Craft was introduced into the Hospitality markets around the world ten years ago, the Craft range was the first to define what the look and feel of the ultimate Artisan inspired range should be.

ROSE QUARTZ: 1785

exciting & unique; no two pieces alike

The Vesuvius range is a collection of stunning reactive glazes, including Amber, Lapis, Burnt Emerald, and Rose Quartz. Taking their names from some of nature's more precious materials, these glazes complement and contrast with each other and provide a rich and exciting platform for today's eclectic and diverse menus.

nuanced artisan experience

Using reactive glazes that change in colour and intensity depending on their application, Revolution glazes are specially formulated to enhance all the nuances experienced in their execution. Applied by hand using a revolving motion, the path the brush travels across each piece is evident in the fired result. The glazed surface of each piece in the range is as different and unique as the artisan that created it. This provides an ideal platform for Chef to showcase their art, no matter what the cuisine style.

The use of hand-applied reactive glazes on Revolution Edge frames food beautifully, allowing for a slightly more formal approach to relaxed presentations. Revolution Edge allows food to be presented on a clean white platform complemented by a contrasting colour field. This has the effect of highlighting Chef's creativity, allowing it to speak for itself.

Revolution Edge can be used as a single colour presentation or mixed and matched freely with others in the range. It also co-ordinates beautifully with Revolution for a more casual and easy-going style.

crisp, timeless, and elegant styling

Bead defines a classic approach to dining, one which embodies best practice for back of the house ease-of-use while delivering beautifully presented dishes to delighted diners. This range consists of two elements: Bead and Bead Accents, which can be mixed for a personalised collection. A classic linear design is carried across the main collection of Bead items, while the Bead Accents component offers an alternative decorative style to key presentation items alongside the classic iteration. The Bead Accents decoration provides a contemporary element that adds texture and visual excitement.

The addition of a hand-applied wash of colour to the Bead range provides a subtle but refreshing accent. This softens the look and adds a casual approach to the way Bead presents food. Classic, timeless, and perfectly proportioned, the Bead range takes on a Scandinavian feel in either the truffle or sage colourways and works brilliantly in either a traditional or contemporary setting.

unique natural extraordinary

The Potters Collection by Robert Gordon includes an exciting and informal assortment of embossed plates, platters, bowls and accessories in two unique colours: Pier and Storm. Each colour has a distinct finish that is stunning on its own or can be beautifully mixed to create an unforgettable tabletop. The reactive glazes ensures that no two pieces of this Australian-designed porcelain will be exactly alike.

The new stacking plates and bowl are great for stacking back of the house, or serving stacked shares to tables; these, trendy straight-sided, round trays make the most of the plating surface, perfect for every presentation.

Inspired by the traditional silversmith technique of planishing, the Honeybourne collection makes a tactile and light reflecting statement on the table. Featuring classic proportions of long tines and a traditional heel, the deliberately thin neck exaggerates the wide curves of the subtly textured handle. The feel in the hand is well-considered as the texture fades to smooth at the neck of each piece.

Sandstone cutlery by Robert Welch, features a unique ‘stippled effect’ which adds texture and tactility to the handles. Our Designers have added a subtle feature, by incorporating a gradual fading of the texture into the neck of each piece. Sandstone is a slender pattern and has a comfortable, ‘soft feel’ in the hand.

The beautiful surface reflects the light with a gentle glow, creating a statement on the table alongside both formal and casual tableware.

reducing the spread of germs

Pouring a cup of coffee or juice just got easier with D.W. Haber's Touchless Taps. Simply press a cup against the dispenser to activate the flow and pull away once filled. The Touchless Plus is hands and drip-free, and its wide-body targets the side of the glass and not the rim, which ultimately reduces the spread of germs. Made of 18/10 stainless steel, the spouts are resistant to rust and fit any D.W. Haber urn or juicer on self-serve stations and buffets.

Mogogo's new "Free Standing" V-Shield System was designed for safety, while ensuring function, quality and aesthetics were not sacrificed. It can be used on most existing flat surfaces of any length with features to turn corners and shield the ends. The V-Shield legs are equipped with magnets, notches and anti-slip pads for additional stability and a clean gap-free appearance. The system consists of two different sized guards with the option of a full or partially full length acrylic panel depending on the specific application.

Extra style with oval dishes and teaware shapes. The Connoisseur Teapot has been specifically designed to be utilised with the finest quality teas and avoids over brewing when combined with the Teapot Infuser. The exacting capacity means that once the first cup is poured, the remaining water level drops below the level of the tea leaves in the infuser and hence avoids over brewing.
